A schematic diagram of a four-pane window assembly. The window is divided into four equal rectangular panes by three vertical mullions. The entire assembly is framed by a double-line border. A horizontal dashed line runs through the center of the window. On the left and right sides, outside the window frame, there are vertical arrows pointing inward toward the window. Inside the window, on the left and right panes, there are horizontal arrows pointing outward toward the center. On the second and third panes from the left, there are horizontal arrows pointing inward toward the center. This diagram illustrates the pressure distribution across the window panes.
